Project setup	X	X													
Information Retrieval															
Familiarise with Mendeley API			X												
Crawl members' names				■											
Download information from Mendeley API				■	■										
Data management															
Data filtering (extract useful info)						■		■							
Data organization (matrices, files,…)								■	■						
PageRank algorithm										■					
Graph Partitioning											■				
Additional analysis of the information												■	■	■	
Project report								■	■	■	■	■	■	■	■
Project poster															■

■	Half week for each task
■	All the week for the task (except the ones with the report)
■	Weeks with only 4 days
■	Only one day per week
■	Holiday
